Thanks Karyllan.

To get a streamlined response from EPA, I suggest limiting the second part of the request. If you are really inquiring about written submissions received from outside parties and/or partner agencies for Region 2 to provide to the NRRB or incorporate in Region 2's package, to be considered in the NRRB review, then you may want to specify that, and/or limit your request to written communications received in the last month.

If you are looking to capture a broader universe of written communications from outside parties and/or partner agencies with Region, i.e., discussing or asking about the NRRB review more generally, you could specify communications received after August 17, 2012, when Alice Yeh emailed Rob Law, Baykeeper, PRC and Carol Johnston with a heads up.

Probably goes without saying but Region 2 will be able to respond to the more focused request more quickly.

Sarah -

My voice is failing so I'm inserting the proposed requests:

1. The index/table of contents for the administrative record file, with an indication as to when it was last updated; and
2. With the exception of those documents that have already been provided to my office, any and all documents, including but not limited to, letters, emails, notes, memoranda, comments or other written correspondence, received by EPA regarding the National Remedy Review Board's review of EPA's anticipated selection of a remedy for the lower eight miles of the LPRSA from any source, including but not limited to: individuals; public, private and/or community organizations or groups; and any federal and state governmental agencies.

Please let me know if these cause problems for you.

Thanks,

Karyllan
